### 3. WORKSHOP: complete first two steps

In April 2017, INNO INDIGO will organize a full 1 day workshop for a selection of INDIGO funded projects selected for the mentoring scheme.

The valorisation workshop will close the set of online training and mentoring activities. We expect the participants to have worked on their scaling up roadmaps between February and March 2017 (by using the MOOC/MOODLE and the mentoring support). The valorisation workshop will represent the final milestone of this process, when their individual roadmaps will be validated with peers and experts.

The workshop will consist of:

- Pitching session, where the selected projects will present their results and scaling up plans to a set of experts
- Feedback from experts and peers
- 2 training sessions (for example business modelling and marketing)

Participation is free of charge. Application is required:
